BEFORE YOU FILL

How to use this template

Every page after this is a fillable form. Click a field and type. Open the file in Adobe Acrobat, Preview or a browser, fill it in, then save.

WHAT TO COLLECT FOR EACH PROJECT

- 01 Client and context**
Who the client is, their industry, and the Wabsar service used.
- 02 The challenge**
The specific problem or bottleneck before Wabsar started.
- 03 The solution**
What was designed and built, in plain language.
- 04 Implementation**
The key steps and how long the project took.
- 05 Measured results**
Real before-and-after numbers: time saved, orders, cost, revenue.
- 06 Client quote**
A short testimonial, in the client's own words.

KEEP IT HONEST

- Use only real projects and real, verifiable results.
- Get the client's written permission before naming them or quoting them.
- If a client wants to stay private, describe them by industry only.
- State the period the results cover, for example: first 3 months.
