IDEAS TO IMPACT

OVERVIEW

Solutions by industry

Every industry has its own bottlenecks. This document shows where Wabsar's services fit, with practical use cases for each of eight industries.

Each use case is a starting point. We shape the final solution around how your business actually operates.

INDUSTRIES 01-02

Use cases by industry

01 Retail & E-commerce

Selling across stores and marketplaces while orders, stock and listings are still handled by hand.

Online store or marketplace

A branded store or multi-vendor marketplace with payments, shipping and order management built in.

Order and stock automation

Orders, inventory and invoices kept in sync across channels without manual data entry.

Listing-ready product visuals

Product photos, videos, banners and image edits sized for marketplaces and your own store.

AI shopping assistant

A chatbot that answers product, order-status and return questions around the clock.

02 Fashion & D2C Brands

Brand-led sellers who need standout visuals and a store that they fully own.

Branded D2C storefront

A fast, mobile-first website with catalogue, checkout and SEO-ready structure.

Lookbooks and product shoots

Photography and short videos that show products the way your brand wants them seen.

Campaign creatives

Banners, posters and social creatives for launches, sales and festive campaigns.

Customer follow-up automation

Order updates, abandoned-cart nudges and review requests sent automatically.

INDUSTRIES 03-04

Use cases by industry

03 Healthcare & Clinics

Appointments, patient records and follow-ups that depend on phone calls and paperwork.

Clinic website with booking

A trusted online presence where patients see services, doctors and book a slot.

Patient intake and records

A secure portal for intake forms, visit history and role-based staff access.

AI front-desk assistant

Handles timings, services and booking questions so staff can focus on patients.

Reminders and follow-ups

Automatic appointment reminders, check-ins and follow-up messages.

Custom Solutions

AI & Automation

04 Education & Coaching

Institutes and creators who need to run admissions, content and student support at scale.

Learning platform

A course or coaching platform with subscriptions, lessons, progress tracking and payments.

Admissions and enquiry automation

Enquiries captured, followed up and routed to the right counsellor automatically.

Student and parent portal

One place for schedules, materials, fees and announcements.

AI doubt assistant

A study helper trained on your material that answers student questions anytime.

INDUSTRIES 05-06

Use cases by industry

05 Real Estate

Agents and developers juggling listings, leads and site visits across many tools.

Property listing website

Searchable listings with filters, galleries, maps and a direct enquiry flow.

Lead capture and CRM automation

Every enquiry logged, scored and followed up without anything slipping through.

Property photos and video tours

Photography and walkthrough videos that make each listing stand out.

Brochures and presentations

Project brochures, pitch decks and branded sales material, ready to share.

Business Growth Hub

06 Restaurants & Food

Food businesses that rely on third-party apps and manual order handling.

Direct online ordering

Your own menu and ordering site, so more orders come to you instead of aggregators.

Order and table automation

Orders, reservations and kitchen notifications handled without back-and-forth calls.

Food photography and menus

Dish photography, menu design and posters that make people hungry.

Feedback and loyalty

Automatic review requests, offers and repeat-visit reminders.

INDUSTRIES 07-08

Use cases by industry

07 Manufacturing & Distribution

Operations that run on spreadsheets, calls and disconnected order trails.

B2B catalogue and ordering

A trade portal where dealers and buyers browse, order and reorder on their own.

Inventory, dispatch and billing

Custom tools that track stock, dispatches and invoices in one system.

Dealer and distributor portal

Pricing, orders, statements and support in a single login for partners.

Reporting automation

Daily and weekly reports compiled and delivered without manual effort.

E-commerce

AI & Automation

08 Professional Services & Agencies

Teams that spend more time on admin, proposals and reporting than on client work.

Client portal and project tracking

Clients see progress, files and invoices in one place; your team sees the full picture.

Proposal and report automation

Proposals, reports and documents drafted from templates and data in minutes.

Lead nurturing and onboarding

Enquiries followed up and new clients onboarded through automated workflows.

Presentations and brand kit

Pitch decks, brochures and a consistent brand for every client touchpoint.
